1. I wish IN could get so lucky as to have a cupcake bakery only! Sure we have a lot of bakeries but it's not the same as an all cupcakes place would be.

2. These cupcakes are to die for. They are perfect bite size treats. The Banana's Foster is SO good!

3. When cupcakes are copied it is the highest form of flattery. I only wish they did not look exactly like mine because I have an outlet in Park City, Sugarbuzz, that sells my cupcakes and many people have been confused that those are my cupcakes and they do not taste the same. But oh well...

4. I apologize. It was not my intent to make anyone think they were someone else's cupcakes.
